- Agile

Michael Sawlani
Frontend Developer

Experience

02-2024 - Present
Personal Project
Twitch Python Bot

- Developed a comprehensive TwitchIO bot utilizing the TwitchIO Python library to enable custom commands, automated routine messages, and various moderation tools for enhanced channel management.
- Utilized APIs to seamlessly retrieve diverse data from Twitch, including real-time updates such as Spotify song details, viewer follow notifications, and recent highlights from the Twitch channel.
- Implemented a robust point system within the bot framework to reward and engage viewers, enhancing interactivity and loyalty within the community.
- Integrated MongoDB database functionality to efficiently store and manage viewer points and custom commands, ensuring data persistence and scalability for future bot enhancements.

01-2020 - 03-2023
Sogeti l Westchester, IL (Remote)
Consultant

- Provided support to diverse clients, including IAA, Procter & Gamble, and KPMG, within a consulting capacity.
- Developed comprehensive work plans tailored to each client's unique business priorities and deadlines.
- Strived to deliver exceptional service, fostering strong client relationships to ensure ongoing collaboration and explore future business opportunities.
- Stayed abreast of industry trends and emerging technologies to provide clients with innovative solutions.

10-2016 - Present
Personal Project
Portfolio

- Developed a dynamic portfolio website utilizing React, HTML, CSS, and Bootstrap technologies.
- Implemented responsive design principles to ensure optimal viewing across various devices and screen sizes.
- Leveraged Google Firebase for seamless deployment of the website, ensuring reliable hosting and scalability.
- Streamlined the deployment process by creating a custom command within the project, enabling one-step build and deployment operations.
- Designed and organized the website content to showcase projects, skills, and achievements effectively, enhancing user engagement and navigation experience.

08-2016 - 08-2019
MD Pediatric Center LLC | Oak Lawn, IL (Remote)
Web Developer

- Developed intuitive website navigation, ensuring smooth transitions through the implementation of HTML, CSS, and JavaScript.
- Integrated Healow for appointment scheduling, resulting in a 20% increase in customer engagement.
- Demonstrated leadership in SEO strategies, achieving a top-five website ranking through using meta tags and keywords effectively.
- Employed Google Lighthouse to refine and optimize SEO scores, ensuring the website maintains high visibility and performance standards.
